Dear Greg,

Just a note to thank you for your care and special attention to us, as country clients, when we were in the market for a used car.

The condition of the vehicle was immaculate and the price was comparable to anything we had seen advertised for private sale through the newspapers with the added benefit of a warranty. Being able to pull into a reputable car yard, knowing that all vehicles have a 100 point check, certainly beat the time, energy and worry of buying a car through private sale. We appreciate your honesty and integrity in your dealings with us.

Rest assured, we will be recommending you to our friends should they ever comment that they are in need of buying a car.

Yours faithfully
